## HOW TO FIND THE PERFECT SADDLE

1. Measuring the ischial tuberosity distance

2. Determination of the seating position:

RACE (sporty)

TOUR (moderate)

COMFORT (upright)

Both factors influence the saddle width: S | M | L

ischial tuberosity distance	 RACE	 TOUR	 COMFORT
up to 11 cm	S (135 mm)	S (145 mm)	S (155 mm)
11 – 13 cm	M (145 mm)	M (155 mm)	M (165 mm)
more than 13 cm	L (155 mm)	L (165 mm)	L (175 mm)

Example: the ideal saddle with a ischial tuberosity distance of 12 cm and moderate seating position:

CUBE TOUR EXC saddles in size M or CUBE Natural Fit TOUR EXC or PRO in size M for comfort oriented bikers
